

Rudi Pertot

Strings Section

Rudi Pertot moved to Diamond Beach in his mid 50s. Other interests took precedence, but in 2016, at the age of 65, he started playing with Sinfonia MNC. Rudi has been a musician all his life, but he learned classical violin for about 4 years when in primary school – so that makes it some fifty years between “classical” gigs.

Rudi was in high school the Sixties and, like so many other classically-trained musicians, he deserted for rock and blues bands. He played bass guitar and also did vocals.

With maturity came another change and Rudi played fiddle in bush bands during his late 20s to early 30s. He played Bass guitar, did the vocals, and played the fiddle in a 3-piece band during his 40s to mid-50s, playing any songs that they liked from any genre.

Rudi is a man of many talents and we are very happy to have him with us in Sinfonia MNC. Who knows – we may start taking requests at an upcoming concert.
